

Abdul Musawair

ID: 2150569189949 Work permit: Pakistani Nationality: Pakistani

Date of birth: 02 jan 2003 Place of birth: North Waziristan, Pakistan

☎ 03370333738 ✉ musawairkhan7777@gmail.com

Work: University of Engineering & technology peshawar, 25000 Peshawar (Pakistan)

ABOUT MYSELF

Results-driven Data Science and Computer Vision Engineer with a strong foundation in machine learning, deep learning, and real-world AI applications. Experienced in developing intelligent systems using modern frameworks such as PyTorch and TensorFlow, with hands-on expertise in computer vision techniques using OpenCV and state-of-the-art object detection models like YOLOv8.

Skilled in building end-to-end solutions including object detection, image processing, and optical character recognition (OCR), with practical experience in projects such as helmet detection, license plate recognition, and smart surveillance systems. Adept at transforming data into actionable insights and deploying scalable AI models for real-world impact.

Passionate about solving complex problems through innovative AI solutions, with a focus on delivering efficient, accurate, and production-ready systems. Continuously learning and adapting to emerging technologies in data science and computer vision to stay at the forefront of the field.

WORK EXPERIENCE

NCSI – Computer Vision Department

Peshawar, Pakistan

Computer Vision Intern / Engineer

- Developed real-time **object detection and recognition systems** using YOLO models
- Built AI solutions for **helmet detection and license plate recognition (ANPR)**
- Applied image processing techniques using OpenCV for preprocessing and feature extraction
- Trained and optimized deep learning models using PyTorch
- Implemented OCR systems for extracting text from images and videos
- Improved model accuracy through tuning and dataset enhancement
- Deployed models for practical applications in surveillance and monitoring systems

EDUCATION AND TRAINING Bachelor of Science in data science

DigiSkills.pk

AI in Python & Communication Skills

- Learned practical implementation of AI concepts using Python
- Developed problem-solving and communication skills for professional environment

PakAngels

Generative AI Training

- Gained hands-on experience with Generative AI tools and concepts
- Worked on AI-driven content generation and modern AI applications

National Center of Artificial Intelligence (NCAI)

Computer Vision (Object Detection & Recognition)

- Developed models for **object detection and recognition** using YOLOv8
- Applied image processing techniques using OpenCV
- Worked on real-world computer vision tasks including detection and tracking systems
- Improved model performance through training, tuning, and evaluation

Core Technical Skills

Programming:

- Python

Libraries & Frameworks:

- OpenCV, PyTorch, TensorFlow, NumPy, Pandas

Computer Vision:

- Object Detection (YOLO)
- Image Processing
- OCR (Text Recognition)

Tools:

- Google Colab, Jupyter Notebook, Git, GitHub

PROFESSIONAL NETWORKING COMPETENCIES

Industry-Leading Tools & Software

- OpenCV
 - PyTorch / TensorFlow
 - YOLOv8
 - NumPy, Pandas
 - Matplotlib, Seaborn
 - Jupyter Notebook, Google Colab
 - Git, GitHub
 - EasyOCR / PaddleOCRLANGUAGE SKILLS
-
